Craigslist Job Posting Network

Posting on Craigslist ensures your position will be seen by a large number of job seekers, many of whom have saved their job search criteria and will rerun the search every few days, giving your job another opportunity for visibility.

Craigslist boasts 800 million monthly visits, the vast majority of which are from US viewers. Your position will appear in search results for local job seekers, as well as candidates from other areas who have targeted your location.

It is great for lower wage positions, such as:

- Receptionists
- Clerks
- Restaurant help
- Assistants
- Internships
- Coordinators
- Part-time workers
